Superintendent's Highlights

We continue to use the Effective Schools Improvement Model as our guide. We are in our fifth year with this project with some very positive results.

Technology continues to be a major emphasis. In-service training in technology was emphasized again. We have now reached that magic 90% mark.

Progress Towards Meeting District Goals

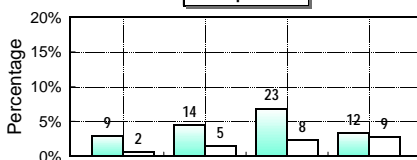

2000-01 Goals	Progress
Increase professional development in math.	The school district is beginning a 2 year partnership with the Northwest Regional Lab. Twenty-five elementary and middle school math teachers will participate in the consortium.
Increase student academic growth	We received a comprehensive school reform grant from the state, which allowed us to extend the school day for students. We are currently in our third year of the implementation. The project allows students to practice academic skills at home using a PlayStation and curriculum disks.
Improve assessment strategies	This is our first year using MAP. This is a computerized assessment through NWEA, which measures individual student growth.
